## Class Matrix

-colNum: int

-rowNum: int

-Inverse(): Matrix

-item: double\*

-get(int i, int i): int

-set(int i, int i, double value) : void

-Trans(): Matrix

-operator- (const Matrix& m): Matrix -operator=(const Matrix& m): Matrix&

-getSubMatrix(i,j,m,n): Matrix

-operator+(const Matrix& m): Matrix

-operator\*(const Matrix& m): Matrix
